ACCELERATE BUSINESS GROWTH WITH EFFECTIVE MANAGEMENT, CONTROL AND CUSTOMER EXPERIENCE

iBusiness suite™ ERP

In today's fast changing and tightly competitive global business environment with quick technology enhancments, it is quite adequate for any organization to have a flexible and upgradable business platform. In a recent survey of top management decision makers, the concerns highlighted were business continuity, control, productivity, data security and the cost of ownership of a stable platform.

iBusiness Suite, the next generation ERP software solution, allows seamless integration of business processes of all functions across the organization and among the business stake holders. It makes use of powerful features of communication, connectivity, web access and the latest mobile technologies. Seperate Editions of iBusiness suite are available for Small, Medium and Large Enterprises.

iBusiness suite offers specialised flavors of ERP for sectors

- TRADING
