# iBusiness suite<sup>TM</sup> ERP

In today's fast changing and tightly competitive global business environment with quick technology enhancements, it is quite adequate for any organization to have a flexible and upgradable business platform. In a recent survey of top management decision makers, the concerns highlighted were business continuity, control, productivity, data security and the cost of ownership of a stable platform.

iBusiness Suite, the next generation ERP software solution, allows seamless integration of business processes of all function across the organization and among the business stake holders. It makes use of powerful features of communication, connectivity, web access and the latest mobile technologies. Separate Editions of iBusiness suite are available for Small, Medium and Large Enterprises.

It is mobile friendly and ensures easy access from Smart Phone and Tablets even in mobility for the authorized users.

It is Green! End to end communications, approvals and documentations being online, assures paperless functioning of the entire organization.
